Advance Directive Acknowledgement

Making choices is an important part of everyone's lives. Health care choices are some of the most important choices we make. Someday, you may not be able to communicate what your healthcare wishes are. Someone may have to make health care choices for you. An advanced directive is a way to describe the choices you want made for you in the future. There are three types of advance directives:

- A Durable Power of Attorney lets you appoint a patient advocate. Your patient advocate
 will make healthcare choices for you if you are not able to make them for yourself. You
 can describe your choices in writing. Your patient advocate can make treatment and
 placement decisions for you based on your specific choices.
- 2. A **Do Not Resuscitate Order (DNR)** is a special kind of advance directive. A DNR describes the medical services you choose to receive when you are terminally ill and in the final stages of life.
- 3. A **Living Will** tells healthcare providers and the courts about your healthcare choices. Although courts will take living wills into consideration, they are not necessarily legally binding documents in the State of Michigan.

The choice to complete an advance directive is completely up to you. The services you receive will not be affected by your choice of whether or not to complete one. If you complete, or have completed, an advance directive, you should give a copy to all of your healthcare providers, including mental health and medical providers.
